History

PCVC Andhra began in 2007 with the objective of scaling up and replicating the PCVC models for intervention with child labor issues in rural coastal areas of the state. The first shelter was opened in Bapatla (Guntur District) after a baseline survey conducted in the area. The collected data was presented to the Education Department, resulting in the opening of our first shelter in the state.

In 2008, PCVC was asked to participate in a rescue operation with the Labour Department in Hyderabad, marking the start of our urban program for vulnerable children.

PCVC AP is one of the fastest growing programs of PCVC, having successfully expanded interventions beyond urban areas. A partnership was launched in Karimnagar District last year, and this collaboration has continued to grow.

2018-19 Coverage: 42,716 children covered across Hyderabad City and Guntur District.
Andhra Pradesh
