History

PCVC Andhra began in 2007 with the objective of scaling up and replicating the PCVC models for interventions in out-of-school children and working children. A first baseline survey was conducted in Bapatla (Guntur District) to gather information on out-of-school and working children in the area. The data was presented to the Education Department, as a result of which our first shelter was opened in the State.

In 2008, PCVC was asked to participate in a rescue operation with the Labour Department in Hyderabad. Thus started our urban program for vulnerable children.

PCVC AP is one of the fastest growing programs of PCVC, having successfully expanding interventions internally to urban areas. Our complete participatory model was launched in Karimnagar District in partnership with our team last year, and this partnership has continued to thrive.

2018-19 Coverage: 42,716 children covered across Hyderabad City and Guntur District.
**Current Programs:**

- Education Program
- School Enrollment
- Rescue Program
- Prevention Program
- Child Rights Awareness sessions
- School Follow Up Program
- Child Rights & RTE awareness sessions
- Disability Program
