History

PCVC Andhra began in 2007 with the objective of scaling up and replicating the PCVC models for intervention in the State of Andhra Pradesh. A first baseline survey was conducted in Bapatla (Guntur District) to gather information on out-of-school and working children in the area. The data was presented to the Education Department, as a result of which our first shelter was opened in the State.

In 2008, PCVC was asked to participate in a rescue operation with the Labour Department in Hyderabad. Thus started our urban program for vulnerable children.

PCVC AP is one of the fastest growing programs of PCVC, having successfully expanding interventions internally to urban areas. PCVC AP’s urban program in Hyderabad received recognition for its innovative approach to intervention. In 2017-18, PCVC AP received the National Award in the Ministry of Health and Family Welfare for their model and approach to intervention.

PCVC AP is one of the fastest growing programs of PCVC, having successfully expanding interventions internally to urban areas.
